- Criteria for registering a professional designation on the NQF ....................................................7
The Policy and Criteria for the Recognition of Professional Bodies and the Registration of Professional Designations has been developed by SAQA as part of its mandate to “further develop and implement the NQF”. Section 13(1)(i) of the NQF Act, Act 67 of 2008, requires SAQA to:

(i) develop and implement policy and criteria for recognising a professional body and registering a professional designation for the purposes of this Act, after consultation with statutory and non-statutory bodies of expert practitioners in occupational fields and with the QCs; and

(ii) recognise a professional body and register its professional designation if the criteria contemplated in subparagraph (i) have been met.

The policy was developed in the spirit of our participative democracy. SAQA led the process through transparent communication and active collaboration and consulted widely. Various stakeholders were involved including statutory and non-statutory professional bodies, the Quality Councils (Council on Higher Education, General and Further Education and Training Council (Umalusi) and the Quality Council for Trades and Occupations) and providers of education and training. This policy demonstrates the critical role of professional bodies in quality assurance and standards development in the NQF environment.

The recognition of professional bodies will contribute to strengthening social responsiveness and accountability within professions and promoting pride in association for all professions. Redress is a key imperative in the South African policy and regulatory environment and the NQF is no exception. It is critical that perceptions of exclusionary practices be addressed up front and that professions do not apply unjust policies and practices in regard to who gains access to a profession.

SAQA is working with the professional bodies to make sure that all South Africans benefit from the professions.

Chief Executive Officer  
SAQA

---

Foreword

The Policy and Criteria for the Recognition of Professional Bodies and the Registration of Professional Designations has been developed by SAQA as part of its mandate to “further develop and implement the NQF”. Section 13(1)(i) of the NQF Act, Act 67 of 2008, requires SAQA to:

(i) develop and implement policy and criteria for recognising a professional body and registering a professional designation for the purposes of this Act, after consultation with statutory and non-statutory bodies of expert practitioners in occupational fields and with the QCs; and

(ii) recognise a professional body and register its professional designation if the criteria contemplated in subparagraph (i) have been met.

The policy was developed in the spirit of our participative democracy. SAQA led the process through transparent communication and active collaboration and consulted widely. Various stakeholders were involved including statutory and non-statutory professional bodies, the Quality Councils (Council on Higher Education, General and Further Education and Training Council (Umalusi) and the Quality Council for Trades and Occupations) and providers of education and training. This policy demonstrates the critical role of professional bodies in quality assurance and standards development in the NQF environment.

The recognition of professional bodies will contribute to strengthening social responsiveness and accountability within professions and promoting pride in association for all professions. Redress is a key imperative in the South African policy and regulatory environment and the NQF is no exception. It is critical that perceptions of exclusionary practices be addressed up front and that professions do not apply unjust policies and practices in regard to who gains access to a profession.

SAQA is working with the professional bodies to make sure that all South Africans benefit from the professions.
Purpose

1. This policy and criteria outlines the manner in which the South African Qualifications Authority (SAQA) recognises statutory and non-statutory professional bodies for the purposes of the National Qualifications Framework (NQF) Act (Act 67 of 2008), as well as the manner in which professional designations from recognised professional bodies are registered on the NQF by SAQA.

Definitions

3. “Occupational qualification” means a qualification associated with a trade, occupation or profession resulting in learning in and for the workplace.
4. “Professional body” means any body of expert practitioners in an occupational field, and includes an occupational body.
5. “Professional designation” means a title or status conferred by a professional body in recognition of a person’s expertise and/or right to practice in an occupational field.
6. “Progression pathway” means a hierarchy of two or more related qualifications and/or professional designations that allow for vertical progression within a profession.
7. “Provider” means a body that offers any education programme or trade and occupational learning programme that leads to a qualification or part qualification on the NQF.
8. “Qualification” means a qualification or part qualification registered on the NQF.

Introduction and background

9. The South African NQF is a comprehensive system approved by the Minister of Higher Education and Training for the classification, registration, publication and articulation of quality assured national qualifications. The NQF was established under the SAQA Act (Act 58 of 1995) and continues under the NQF Act (Act 67 of 2008) which came into effect on 1 June 2009.
10. The objectives of the NQF are to:
   i. Create a single, integrated national framework for learning achievements
   ii. Facilitate access to, and mobility and progression within, education, training and career paths
   iii. Enhance the quality of education and training
   iv. Accelerate the redress of past unfair discrimination in education, training and employment opportunities
   v. Contribute to the full personal development of each learner and the social and economic development of the nation at large.
11. SAQA is charged with overseeing the further development and implementation of the NQF, and understands it as a system of communication, coordination and collaboration across education, training, development and work. In advancing the NQF objectives, SAQA embraces diversity, environmental sustainability and social justice.

12. The NQF is developed as an integrated framework overseen by SAQA and made up of three coordinated integrated sub-frameworks, each overseen by a quality council:

   i. Higher Education Qualifications sub-framework overseen by the Council on Higher Education (CHE)
   ii. General and Further Education and Training Qualifications sub-framework overseen by the General and Further Education and Training Qualifications Quality Council (Umalusi)
   iii. Occupational Qualifications sub-framework overseen by the Quality Council for Trades and Occupations (QCTO).

13. In terms of Sections 28, 29, 30 and 31, read with paragraphs 13(1)(i)(i), 13(1)(i)(ii) and 13(1)(l) of the NQF Act, and notwithstanding the provisions of any other Act, a statutory or non-statutory professional body shall:

   i. Co-operate with the relevant quality council(s) in respect of qualifications and quality assurance in its occupational field
   ii. Apply, in the manner prescribed by SAQA, to be recognised as a professional body in terms of the NQF Act
   iii. Apply, in the manner prescribed by SAQA, to register a professional designation on the NQF.

**Objectives**

14. The objectives of these policy and criteria are to:

   i. Advance the objectives of the NQF
   ii. Promote public understanding of, and trust in, professions through the establishment of a nationally regulated system for the recognition of professional bodies and for the registration of professional designations
   iii. Encourage social responsibility and accountability within the professions relating to professional services communities and individuals
   iv. Promote pride in association for all professions, including traditional trades and occupations
   v. Promote the protection of the public by professional bodies from malpractice related to the fulfilment of the professional duties and responsibilities of professionals registered with them
   vi. Encourage international leading practice and the raising of esteem for all professions in South Africa
   vii. Facilitate access to, and analysis of, data related to professions, including traditional trades and occupations, for the purposes and use as prescribed by the NQF Act
   viii. Support the development of a national career advice system
   ix. Encourage the development and implementation of continuing professional development.

**Scope**

15. These policy and criteria apply to all professional bodies in South Africa who function within and for the purposes of the NQF Act.
Policy for recognising a professional body

16. A body constituted to represent and/or regulate a recognised community of expert practitioners shall be recognised by SAQA as a professional body on fulfilment of the criteria for recognition as a professional body.

17. Proliferation of professional bodies within the same community of practice will be discouraged, but will be balanced with the recognition that healthy competition and freedom of association should not be impeded. In cases where more than one professional body for a specific community of practice applies for recognition by SAQA, the following will be considered:

i. No additional professional bodies will be recognised by SAQA in a sector in which a professional body has been established through an Act of Parliament (a statutory body)
ii. No legal impediment to the operation of a second or subsequent body
iii. The outcome of a broad consultation within the community of practice and the wider society
iv. The distinctiveness of multiple bodies in the community of practice.

18. In administering the policy and criteria for the recognition of professional bodies SAQA shall:

i. Publish for comment its intention to recognise a professional body in the government gazette for thirty (30) days, to solicit any possible objections
ii. Monitor recognised professional bodies for the purposes of the NQF Act
iii. Give due notice to a recognised professional body; and in the case of a statutory body, SAQA shall also notify the relevant Minister that an alleged lack of compliance with the SAQA policy and criteria for the recognition of a professional body is being investigated, and render the necessary support to the professional body concerned
iv. Not charge professional bodies, but reserves the right to recover costs in instances where unnecessary and wasteful expenditure is incurred by SAQA as a result of delays and lack of compliance by the professional body concerned.

19. In meeting the policy and criteria for the recognition of professional bodies, a recognised professional body may:

i. Not be accredited as an education and training provider by a Quality Council
ii. Not be registered as an education and training provider with the Department of Higher Education and Training
iii. Register its employees on learnerships
iv. Act as a workplace provider for the delivery of learnerships
v. Recognise suitable workplaces and be involved in the assessment of workplace experience
vi. Recognise suitable education and training providers and be involved in the curriculation of learning programmes offered by education and training providers
vii. Set and administer its’ own Board examinations.

20. A recognised professional body must register its professional designations on the NQF in accordance with the SAQA policy and criteria for registering a professional designation.
21. Where a professional body that is recognised, or is in the process of seeking recognition, wishes to give formal recognition to an occupational qualification as a precondition for the issuing of its designation, it must enter into a formal agreement with the QCTO to attain the authority to develop and/or quality assure such occupational qualification.

22. Professional bodies in South Africa must meet South African requirements as outlined in the policy and criteria for recognising a professional body and registering a professional designation for the purposes of the NQF Act, including the data requirements.

23. A body that meets the criteria for recognition as a professional body by SAQA is recognised for an initial period of five (5) years, renewable for subsequent five (5) year periods, subject to the favourable outcome of a monitoring and evaluation process conducted by SAQA.

24. SAQA may remove the recognition status from a professional body, if the body no longer complies with the SAQA policy and criteria for the recognition of a professional body or if the professional body ceases to exist. SAQA will inform the relevant Minister in the case of recognised statutory professional bodies before removing the recognition status of such bodies.

25. If a professional body loses its recognition status, its professional designations will be deregistered from the NQF. The records of the holders of the designation will reflect the deregistration date and no new records will be added against the designation.

26. A professional body that has its recognition status removed, or a body that was declined recognition as a professional body, has the right to appeal to SAQA within a period not exceeding sixty (60) working days.

27. SAQA will publish the removal of the recognition status of a professional body in the government gazette and on the SAQA website, which will be considered sufficient communication regarding this change in status to the specific community of practice and the wider society.

Criteria for recognising a professional body

28. A body applying to be recognised as a professional body by SAQA shall:

   i. Be a legally constituted entity with the necessary human and financial resources to undertake its functions, governed either by a statute, charter or a constitution and be compliant with and adhere to good corporate governance practices

   ii. Protect the public interest in relation to services provided by its members and the associated risks

   iii. Develop, award, monitor and revoke its professional designations in terms of its own rules, legislation and/or international conventions

   iv. Submit a list of members in a form acceptable to SAQA

   v. Set criteria for, promote and monitor continuing professional development (CPD) for its members to meet the relevant professional designation requirements

   vi. Publish a code of conduct and operate a mechanism for the reporting and investigating of members who are alleged to have contravened the code

   vii. Not apply unfair exclusionary practices in terms of membership admission to the body or when recognising education or training providers

   viii. Make career advice related information available to SAQA.
Policy for registering a professional designation on the NQF

29. A professional designation shall be conferred by a professional body to an individual in the form of a title, status and/or registration number.

30. A professional designation indicates registration of the individual with a professional body, and, where relevant, the right to practice in the particular field of expertise governed by the professional body. Retention of the status is dependent upon compliance with the stated requirements of the professional body concerned.

31. A professional designation must be registered separately from a qualification.

32. Only professional bodies recognised by SAQA for the purpose of the NQF Act of 2008 may apply to SAQA for the registration of a professional designation on the NQF.

33. A professional designation can be revoked in terms of the rules, legislation and/or international conventions of the recognised professional body with which it is associated.

34. The same professional designations cannot be registered by more than one recognised professional body in South Africa.

35. Professional designations awarded through international awarding bodies shall meet South African requirements as outlined in the policy and criteria for recognising a professional body and registering a professional designation for the purposes of the NQF Act of 2008.

36. Verification queries related to professional designations are the exclusive responsibility of the relevant professional body.

37. SAQA will publish for comment its intention to register a professional designation in the government gazette for thirty (30) days to solicit any possible objections.

38. The registration of a professional designation by SAQA will only be valid for as long as the professional body conferring the designation is recognised by SAQA.

39. SAQA may deregister a professional designation if the professional body which submitted the designation for registration no longer complies with the SAQA policy and criteria for the recognition of a professional body, and/or the professional designation no longer complies with the SAQA policy and criteria for the registration of a professional designation.

40. A recognised professional body that has its professional designation(s) deregistered or declined for registration on the NQF has the right to appeal to SAQA within a period not exceeding sixty (60) working days.

41. Following the deregistration of a professional designation from the NQF, the relevant professional body is required to communicate the deregistration to individuals in possession of the designation.

Criteria for registering a professional designation on the NQF

42. In order for a professional designation to be registered on the NQF it must:

   i. Be submitted to SAQA by a recognised professional body in accordance with an application process determined by SAQA

   ii. Be developed, conferred and subject to being revoked in terms of the rules, legislation and/or international conventions applicable to the recognised professional body
iii. Be monitored in terms of the rules, legislation and/or international conventions applicable to the recognised professional body

iv. Be part of a progression pathway which may include an occupational pathway

v. Be linked to a validated database of the names of individuals conferred the professional designation.

vi. Include, as an initial requirement, an underlying qualification(s), which may include an occupational qualification(s)

vii. In the case of an individual’s qualification having been obtained at an institution not registered in South Africa, the individual applying to a professional body for a professional designation, must ensure that the qualification has been evaluated by SAQA and found to be comparable to the South African underlying qualification

viii. Include as general requirements, experiential learning, recognition of prior learning and/or practical experience

ix. Include as retention requirements continuing professional development (CPD) and adherence to a code of professional ethics/conduct.

43. These policy and criteria will be reviewed at least every five years by SAQA after consultation with statutory and non-statutory professional bodies and the three Quality Councils.
