CLIENT INFORMATION: SPECIAL APPLICATIONS FOR 48-HOUR PROCESSING

Purpose

This priority category is reserved for applications of an extra-ordinary urgent type and therefore based on strict conditions. Due to the tight time factor and the pressure exerted in terms of expected delivery, careful consideration of prospective applications is critical.

This document serves to outline the application procedure and to state both the conditions on which the service is offered and the criteria against which prospective applications will be considered.

1 Conditions

1.1 Due to the pressures exerted as a result of special fast-tracking measures, there is a limitation on the number of applications that can be accepted in this category.
1.2 Application cannot be made before a notification of intent, sent to specialrequests@saqa.org.za, has been responded to with information on the details of an appointment.
1.3 Application must be made on site as original qualification documents must be presented by the applicant. E-mail applications will not be considered. In line with the urgency factor, results must also be collected on site.
1.4 The current fee for this service is R1990. Note, however, that:
   • No payment must be made before approval for 48-hour processing has been granted.
   • Proof of payment for approved applications must reach SAQA not later than 10:00 AM of the next business day. Failure to adhere to this requirement will render the application null and void.

3 Approval criteria

3.1 The validity of the motivation provided by the applicant to qualify for special fast-tracking
3.2 Nature of the original documentation submitted
3.3 Current workload / available capacity for special fast-tracking
3.4 Availability of the information required to correctly interpret the qualification(s)
