

Dear Valued Client,

We are pleased to announce the implementation of the SAQA new automated system for evaluating foreign qualifications. This enhancement represents a significant investment in our service delivery capabilities.

The system is scheduled to launch soon.

Key Information to note:

- All existing evaluations will remain accessible on the system where you applied for the evaluation, with the same link.
- The Electronic Certificates of Evaluation (eSCoE) download functionality is active and will allow you to continue as in your previous engagements.
- The current application status tracking remains operational and will allow you to track your application in real time.

During the transition period, both systems will operate in parallel to ensure uninterrupted service delivery. You may in future be redirected to a new URL, which will not interrupt your access.

For technical support on your application, please see refer to the manual on our website (www.saqa.org.za), or email dfgeas@saqa.org.za with your application reference number in the subject line. Our dedicated support team is ready to assist you.

We appreciate your cooperation during this transition and are confident this upgrade will enhance your experience with our services.

SAQA”

Thanks

MS NADIA STARR
CHIEF EXECUTIVE OFFICE
