

United Kingdom Higher Education qualifications

Applicants who wish to submit United Kingdom degree qualifications for evaluation must visit the Higher Education Degree Datacheck (HEDD) website and confirm if verification can be done on HEDD. To do so, use the following link to search for the awarding/degree-issuing university: <https://hedd.ac.uk/search>. If the qualification can be verified via HEDD, kindly start the process by clicking “verify now” button and follow instructions as detailed below:

How to Register with Prospects HEDD to complete your Verification

- 1. Register an account at www.hedd.ac.uk*
- 2. When asked for the organisation details, **please ensure you enter “SAQA”**.*
- 3. A member of the team at HEDD will email you requesting your SAQA reference number and confirming your intention to transfer the verification to SAQA.*
- 4. Once your account is activated, please log in into your HEDD dashboard via www.hedd.ac.uk to begin your verification process. A HEDD/SAQA consent form will be provided.*
- 5. When you have submitted your verification request, you will be provided with a HEDD reference number. Please confirm this back to HEDD and wait until you have received the verification back.*
- 6. When the verification has been completed, email HEDD to confirm you are in receipt of this.*
- 7. HEDD will then securely transfer your verification directly to SAQA for evaluation.*

If degree data verification cannot be done via HEDD, kindly contact the degree-issuing university and find out if they have implemented a **fee-for-degree verification**. Kindly follow their process and attach proof of payment when applying for evaluation at SAQA. If the verification payment is not required, kindly submit a letter indicating that verification fee is not required by the degree awarding university.

kindly contact HEDD on the following platform:
